

“Together We Achieve”

Dear Parents and Carers,

As you may know, Swanwick Primary School has a subscription to Times Table Rock Stars, which means your child can access this programme to develop knowledge of times tables and division facts free of charge. Times tables are recognised as essential to access many mathematical concepts. When it comes to times tables, speed AND accuracy are important – the more facts your child remembers, the easier it is for them to do harder calculations.

Times Table Rock Stars is a fun and challenging programme designed to help pupils master the times tables! Most children would have been on TTRS before and in line with our draft homework policy, we will be asking children to complete a few minutes at home each week. Your child’s teacher has set the appropriate times tables for your child to practice.

This programme can be accessed online via this web address, <https://play.ttrockstars.com/login/23967> - your child has been given their own login and password. You may also download an app for the iphone/ipad or Android app through which your child may practice.

If you have any questions about TTRockstars, please contact your child’s class teacher or Mrs Staley (Maths lead).

Please find some useful information for parent and carers from TTRS on the following pages and on this short video, which includes how to log in <https://www.youtube.com/watch?v=-ZxZbRVvbYM>

Thank you for your continued support,

Mrs C Staley
Mathematics Lead

“Together We Achieve”

What are the different Game Modes?

Single Player

| | |
|---|--|
| <p>Jamming 4 or 8 coins/correct answer</p> | <p>The only game mode without a timer, players chose the table and operation (\times or \div or both) they want to practise. Answer 10, 20 or 30 questions.</p> |
| <p>Gig 10 coins per correct answer</p> | <p>Gig games last 5 minutes and contain up to 100 questions, which come in ‘waves’, starting with the 10s, then the 2s, 5s, 3s, 4s, 8s, 6s, 7s, 9s, 11s and 12s. Novices are not expected to get past the 5s. Gigs provide the child (and their teacher) with a simple measure of their current skills, which is why learners should concentrate fully for the whole Gig as they won’t get another try until next month.</p> |
| <p>Garage 10 coins per correct answer</p> | <p>Players are given a personalised set of 6 multiplication questions (and their matching division questions) in each round. The questions they get keep adjusting to provide the best fit for every learner’s needs. This is probably the best game made for improving their recall while they’re still learning.</p> |
| <p>Studio 1 coin per correct answer</p> | <p>Here your child earns their Rock Status, which is based on their Studio Speed. The faster they are the better their status. Studio Speed is the average of their most recent 10 Studio games. Suitable for confident players.</p> |
| <p>Soundcheck 5 coins per correct answer</p> | <p>Soundcheck games ask 25 multiplication questions (up to 12×12), allowing 6 seconds for each question. Suitable for confident players.</p> |

“Together We Achieve”

| Multi Player | |
|---|---|
| Festival 1 coin per correct answer | Children compete against others from around the world, with their identities protected behind their rock names. Suitable for confident players. |
| Arena 1 coin per correct answer | Children race against other members of their class who are logged in and choose the same arena name at the same time. Arena games use the same smart question algorithm as Garage games. |
| Rock Slam 1 coin per correct answer | Players challenge their classmates or teachers to answer as many questions as they can in 60 seconds, setting a score for the challengee to beat. Pupils don't need to be online at the same time. |
| Tournaments | <p>Battle of the Bands – groups of children within the same school (usually classes, year groups or teams) compete to have the highest <i>average</i> score per player.</p> <p>Top of the Rocks – like a Battle of the Bands <i>between</i> schools. The winning class or school is the one with the most correct answers per person.</p> <p>Important: Each correct answer (in any game mode) earns 1 point towards the team's total in addition to the coins earned. For example, in Garage games each correct answer is worth 1 point for the team and 10 coins for the player.</p> |

Adjustments

| | |
|--|---|
| How can I hide the timer? | Start a game and press ⚙️ > Hide Practice Clock. You could also play a game in Jamming. |
| How can I increase the length of Garage games? | Single player > Garage > press the little arrow below “play solo” > choose 1, 2 or 3 minutes. |
| The tables are too hard | Make sure your child is playing in Garage or Arena game modes. If this does not resolve the issue, please speak to your child’s teacher. Remember that Jamming mode allows the child to choose the tables themselves. |
| My child gets anxious | Try the three above plus: setting mini goals (e.g. complete 2 minutes today, get 1 more point in the next game, pass 1 level); having a break from online play (come back in a couple of days); and reminding them of Baz’s words: “A good rock star stays chillaxed by accepting they make mistakes.” |
| My child has visual impairments; what settings are available? | Head to the Profile page where you can: change the colour scheme; reduce the visual stimuli with Declutter mode; increase the font size or switch to a dyslexia-friendly font called Lexie. play.trockstars.com is also screen reader compatible. |
| Can I turn off division? | Yes in Jamming mode but not in the other games. The reason for that is that practising multiplication and division at the same time supports the recall of both and is the most successful approach. If your child is finding division confusing, please speak to their teacher about starting with the 10s only and for advice on how to help at home. |

Troubleshooting

| | |
|--|---|
| My child’s coins and/or Studio speed have suddenly dropped | Another child may have logged in as your child. Please reassure your child that this can be rectified. Contact their teacher who can set a new password, refund any coins, delete Studio games and talk to the class about online safety. |
| My child plays too much | Set firm TTRS time limits; reward healthy choices; take away devices before bed. |
| What does the  mean? | If this symbol appears over a game tile (e.g. over Garage) it means the teacher has set your child a certain number of minutes to practise in that game mode for homework. Once they complete those minutes the other games unlock. |
